## **PRESS RELEASE**

December 03, 2013

### **FOR IMMEDIATE RELEASE**

#### **GPLN member Fleet Line Shipping handled Gas Floatation Pressure Vessels from U.A.E. to Kuwait**

Dubai based Fleet Line Shipping Services LLC last week successfully completed a project shipment on door to door basis. The shipment consisted of 2 units of Gas Floatation Pressure Vessels measuring 24 meter length x 6.9 meter width x 8.5 meter height, and weighing 106 MT each. Fleet Line Shipping's scope included the transportation from the site in Hamriya free zone in Sharjah to Hamriya port, which was arranged by multi axle hydraulic low bed trailers. Fleet Line Shipping chartered a geared vessel from Hamriya port and discharged the same at Shuwaiba port, Kuwait on direct delivery basis. The most challenging part was to arrange the inland haulage from Shuwaiba port to the project site, which was 135 km away, as many obstacles had to be temporarily removed, such as sign boards, traffic signals, road barriers etc., in coordination and assistance with the traffic- and police authorities.

To see Fleet Line Shipping's project moves please go to their album on the GPLN Facebook page:
