**PRESS RELEASE**

December 06, 2013

**FOR IMMEDIATE RELEASE**

**GPLN member Allseas Global Logistics shipped gantry cranes from Scotland to Saudi Arabia**

Allseas Global Logistics Ltd., a GPLN member from UK, arranged recently the door-to-door shipment of five new internal gantry cranes from Scotland to Saudi Arabia. These were large machines, capable of moving 380,000 metric tons per year when in full operation, so Allseas rapidly set to work planning this shipment. A complex operation from the off, the cargo included the shipment of 10 girder sections each measuring an impressive 35 meters in length. Careful planning was required to move the cargo on a chartered vessel from the UK and across part of the Arabian desert to its final destination at a site in Saudi Arabia. But Allseas team delivered on time and on budget. The end result – Five cranes on site and ready for operation plus one very happy client!

Pictures of Allseas project moves can be seen on GPLN's Facebook pages:
