**PRESS RELEASE**

September 06, 2013

**FOR IMMEDIATE RELEASE**

**GPLN member duo handle project shipment of reactors**

IBC Internationale Spedition, located in Linz Austria, handled in cooperation with another GPLN member, Daewon Logipia Co. LTD from Seoul, Korea, a project for a client of IBC, who deals with reactors all over the world.

This client gave orders to IBC Austria to coordinate the shipment of reactors to Dongducheon, Korea and due to the dimension of these cases (each of them: 4,35 x 4,35 x 3,50m) it was a challenge for IBC and the trucking companies to get the permits in time to catch a vessel which would fit into the time schedule.

IBC managed to arrange a vessel and after arrival of the cargo, Daewon discharged all the containers at Busan Port and arranged the import customs clearance. The next challenge for Daewon was the bad weather situation (strong rain and flooding) and they had therefore to organize tarpaulins for all cases in order to deliver the cargo finally to the job site without any water damage.

Pictures of IBC's moves can be seen on GPLN's Facebook pages:
