PRESS RELEASE

October 10, 2013

FOR IMMEDIATE RELEASE

GPLN member Waiver Logistics transports wind power plant from Chile to Bolivia

Waiver Logistics handled recently a large project, a wind power plant, located at Cochabamba, Bolivia. All equipment was coming from China and Waiver Logistics was responsible to transport it from Arica Port in Chile up to Cochabamba in Bolivia, which is a 900 km long journey. During the first phase Waiver Logistics was handling the 1st two sets of 1.5 MW each for the 15 MW Qollpana Wind Farm Project. Waiver Logistics will continue with this difficult task until all equipment has been successfully delivered to Cochabamba which is located in a valley bearing the same name in the Andes mountain range, about 330km from La Paz, Bolivia's capital.

The Bolivian president, Evo Morales, presided over the signing ceremony on 9th March, together with the state utility Corani, which is developing the project. The Chinese ambassador in Bolivia was also present.

Pictures of Waiver Logistics' moves (head office in Argentina) can be seen on GPLN's Facebook pages: <https://www.facebook.com/media/set/?set=a.10150294526076595.329753.250416211594&type=3>

About Global Project Logistics Network (GPLN)

The Global Project Logistics Network (GPLN) is the largest and most recognized non-exclusive projects logistics network specializing in international projects movements and specialized lifts.
