PRESS RELEASE

September 11, 2013

FOR IMMEDIATE RELEASE

GPLN member Globalink Logistics handles Oil Field Equipment within Kazakhstan

The Oil & Gas sector in Kazakhstan plays a vital role in the development of the region and local transportation of their equipment to various locations is crucial for continuous explorations and operations.

When a request to provide road freight haulage for an OOG separator from Kyzyl Orda to Zheskasgan came up, Globalink got to work right away.

The separator weighing more than 50 odd tons was loaded and lashed onto 4 low bed extendible trailers for the journey to the Ayskum Oilfield. Although the road was rough and did not allow for a fast pace, the separator and related accessories were delivered on time to the final destination, thanks to Globalink's meticulous planning in evaluating the scope of work, the implementation and swift execution.

Pictures of Globalink Logistics' moves can be seen on GPLN's Facebook pages:
