**PRESS RELEASE**

June 02, 2014

**FOR IMMEDIATE RELEASE**

**GPLN duo Laninco and Bellville Rodair move twelve cutting machines from Hungary to Costa Rica**

Costa Rican GPLN member Laninco S.A., based in Central America, was very happy to meet up with fellow GPLN member Bellville Rodair International at the Breakbulk conference in Antwerp, Belgium, recently, to thank them for their fine work and assistance in Hungary with regards to three OG breakbulk shipments that they had recently moved for a client from origin in Europe to Costa Rica. "We are always impressed with the high quality of work from fellow GPLN members" said Laninco President Adam Crabbe. Over three shipments Laninco and Bellville Rodair International Hungary moved twelve cutting machines from Hungary to Antwerp by road, and then by breakbulk service to Puerto Limon and on to the final free zone destination in Alajuela in Costa Rico. Each machine had a dimension of 3.10 m x 2.82 m x 2.65m and a weight of 8,500kg. "As always each shipment is different but due to good planning and control all shipments were delivered on time and in good order to the client" stated Laninco co-owner Cynthia Molina. "We look forward to being able to work with more GPLN members in the future as interest and investment in Central America grows" she added.

**About Global Project Logistics Network (GPLN)**

The Global Project Logistics Network (GPLN) is the largest and most recognized non-exclusive projects logistics network specializing in international projects movements and specialized lifts.
