**PRESS RELEASE**

June 25, 2014

**FOR IMMEDIATE RELEASE**

**GPLN member Protranser ships power equipment to South Korea**

Protranser, a GPLN member from Shanghai in China, last year was awarded a contract as a global logistic supplier for an America-based EPC contractor who is now focusing on providing power equipment for global customers.

As of Dec 2013 Protranser has handled several shipments for this client from Shanghai to South Korea. After the selection of a suitable vessel, Protranser designed a tailor-made shipping plan by coordinating with the port, shipping agent and customs to meet the client's delivery schedule.

Considering that a heavy tank weighing about 77 tons was also part of the cargo, GPLN member Protranser had to rent a floating crane to handle this heavy item. Protranser's dedicated staff was on spot for supervising the whole operation process, together with an independent surveyor, to ensure that all parties concerned meet the strict requirements.

To see some of Protranser's moves please go to their album on the GPLN Facebook page:
