**PRESS RELEASE**

July 30, 2014

**FOR IMMEDIATE RELEASE**

**GPLN member SNS International Transport moves equipment from Turkey to Somalia**

SNS International Transport, a GPLN member from Istanbul in Turkey, handled the transport of construction equipment from Turkey to Somalia. Part of this massive shipment was a 366-ton Gottwald crane that measured 17 meters in length and had a the tower that reached 36 meters in high. Along with the crane were hundreds of tons of steel rebar, several trucks with trailers, container stackers, excavators, and forklifts. GPLN member SNS International Transport moved the construction equipment by trailers to Trazbon port and loaded it onto a large barge which sailed to Derince port to add concrete plant equipment and plastic pipes. The shipment is scheduled to arrive later this month at Mogadishu port in Somalia, to assist a Turkish company for expanding the seaport facilities.

To see some of SNS International Transport's moves please go to their album on the GPLN Facebook page: <https://www.facebook.com/media/set/?set=a.10150292179296595.329219.250416211594&type=3>

**About Global Project Logistics Network (GPLN)**

The Global Project Logistics Network (GPLN) is the largest and most recognized non-exclusive projects logistics network specializing in international projects movements and specialized lifts.
