FOR IMMEDIATE RELEASE

GPLN member Protranser handles transformers from China to Chile

Protranser International Logistics Co., Ltd., a GPLN member from Shanghai in China, was awarded a contract by a customer in China to supply transformers to Chile. The shipment consisted of two transformers, each of which weighed around 70 tons. Working closely with the client, GPLN member Protranser arranged inland transportation, customs clearance and port handling. Protranser's dedicated staff was on spot for supervising the whole operation process, together with an independent surveyor, to ensure that all parties concerned meet the strict requirements. The cargo was loaded at the Port of Shanghai and the vessel was discharged at Puerto Angamos in the heart of the mining region of Chile, about 1,400 kilometers from Santiago de Chile.

To see some of Protranser's moves please go to their album on the GPLN Facebook page:
