**PRESS RELEASE**

March 31, 2015

**FOR IMMEDIATE RELEASE**

**Globalink Logistics Group handles transformers from China to Kazakhstan**

GPLN member Globalink Logistics Group's experienced project department from Kazakhstan was tasked with handling and working out the most efficient route for the transportation of 2 transformers from Hefey, China to Atyrau, Kazakhstan. With a deadline fast approaching, its customer needed the shortest possible transit time for delivery to the final destination. Globalink supervised the loading and lashing at origin and dispatched the cargo. Upon arrival at the Kazakhstan border, its border Dostyk office controlled the offloading and subsequently also reloading onto the waiting rail wagons for the final leg of the journey. The cargo was successfully delivered by GPLN member Globalink project's team to the customer in Atyrau, ahead of the deadline.

To see some of of Globalink's moves please go to their album on the GPLN Facebook page:
