FOR IMMEDIATE RELEASE

GPLN member Protranser ships heavy transformer from China to Vietnam

Protranser International Logistics Co., Ltd., a GPLN member from Shanghai in China, has handled the shipment of a 158 tons transformer from Shanghai to Vietnam for one of their important customers.

The transformer was transported from the factory to the port in Wuhan. At the port Protranser loaded the cargo onto a barge for the 700-kilometer journey down the Yangtze River to the Port of Shanghai. At Shanghai, a floating crane was used to lift the heavy transformer onto a breakbulk vessel for the voyage to Vietnam. GPLN project forwarder Protranser's staff was on hand to supervise the entire operation, along with an independent surveyor.

To see some of Protranser's project moves please go to their album on the GPLN Facebook page:
