PRESS RELEASE

December 20, 2013

FOR IMMEDIATE RELEASE

GPLN member MFC Transport sets new delivery record for nuclear power plant

MFC Transport Pvt. Ltd., a GPLN member from Chennai in India, broke its previous record of 67 days for delivering the 2nd "Calandria" in just 52 days, over a distance of 690 km from the Walchandnagar manufacturing facility in the state of Maharashtra to the nuclear power plant in Kakrapar, state of Gujarat, India. For the large cargo, which had a diameter of 8.3 m, height of 5.2 m and weight of 53 tons, GPLN member MFC Transport designed a fixture that rotates on its axis by 90 degrees in order to overcome the road obstacles en route. The Calandria is an important part of the nuclear power project, forming the reactor vessel of a pressurized heavy water reactor, according to the Nuclear Power Corporation of India Ltd (NPCIL).

To see this and other project moves by MFC Transport please go to their album on the GPLN Facebook page: <https://www.facebook.com/photo.php?fbid=10151747946826595&set=a.10151009408571595.410524.250416211594&type=3&theater>

About Global Project Logistics Network (GPLN)

The Global Project Logistics Network (GPLN) is the largest and most recognized non-exclusive projects logistics network specializing in international projects movements and specialized lifts.
