PRESS RELEASE

September 24, 2013

FOR IMMEDIATE RELEASE

GPLN member City Union Logistics handles heavy lifts for China National Petroleum Corporation

GPLN member City Union Logistics from China handled recently a project with a total volume of 2000CBM for China National Petroleum Corporation (CNPC), most of these high-valued cargoes weighting over 40 tons for each single piece.

City Union's heavy lift experts used 20 low-bed trailers and arranged six lifting cranes to lift the cargoes smoothly and in order to have a more stable lifting process. City union's team was handling this shipment entirely, starting from the vessel, followed by temporary stooing at the custom's laydown area and transportation from Luoqing and Yangshan terminal to the job sites.

Pictures of City Union's moves can be seen on GPLN's Facebook pages:
